

COAST LIFE SUPPORT DISTRICT NEEDS YOU

Coast Life Support District is a California Special District which provides emergency medical services to our community.

The District also provides public education in CPR, First Aid/AED, along with Emergency Medical classes to train new EMTs who serve in our community. CLSD also coordinates with local Fire Departments, Mendonoma Health Alliance, and RCMS with Urgent Care to support and strengthen healthcare on the coast.

To serve on its Board of Directors, you have to be a registered voter in the District which is from Timber Cove in the south to Irish Beach in the north. Board meetings are the 4th Monday of the month and usually last one hour.

If you want to help your community by serving on the governing body of Coast Life Support District, please contact Bronwyn Golly, EMS Chief at ems.chief@clsd.ca.gov with a brief statement of your interest and background by 25 January 2025.

Our community stays safe and healthy with all of our efforts.
